

What a wonderful world.

Taking care of what's valuable, whether it's a school, a community or a person, is at the heart of GE Security's daily charge. Through an on-going commitment to technological innovation, we've developed the industry's broadest security portfolio, including video surveillance, access control, fire and life safety, and intrusion and property protection. By combining these products with best-in-class partners, we've created a network of security solutions to address your community's security challenges. Our mission is simple—protecting what is important in your world.

GE Security is proud to have been chosen as the contract (# 040408-GE) provider of security solutions and services for the National Joint Powers Alliance® (NJPA), and we look forward to serving members of government, education and non-profit industries.

Visit us online at gesecurity.com/NJPA or call 1-877-437-6584.

Learn more about NJPA at njpacoop.org or 1-888-894-1930.
