

## **Stepp is awarded NJPA National Purchasing contract**

If you are budgeting any future or immediate highway patching equipment purchases, Stepp Manufacturing ( [www.steppmfg.com](http://www.steppmfg.com) ) has been awarded a contract with National Joint Powers Alliance (NJPA). The NJPA is a public agency whose aim is to help municipalities (cities, counties, states, etc.), satisfy their bidding process without actually going out to bid. They serve as a municipal contracting agency to over 50,000 members throughout the United States with competitively awarded, cooperative contract solutions through industry leading vendors. **Your agency is able to become a member, free of cost and at no liability or obligation to you.**

Our goal is to save our customer's time and money, and allow them to break through the bidding process barriers with a less complicated way of meeting their purchasing needs. NJPA goes through the same competitive bidding process, so our customers don't have to, allowing them to satisfy their bidding requirements quickly and effectively. Stepp Mfg. has negotiated and been awarded this contract, and you are legally able to and highly encouraged to use this contract to purchase any Stepp equipment.

The only thing you, the customer, has to do in order to purchase off this contract is to become a member by signing up online at the NJPA website <http://www.njpacoop.org/national-cooperative-contract-solutions/join-njpa/> and Stepp will take it from there!

## **Stepp Awarded Contract # 113012-SMC**

For questions or additional information, please visit <http://www.njpacoop.org/national-cooperative-contract-solutions/heavy-utility-equipment/113012-smc/> or contact Branda Jacobson at Stepp Manufacturing at **651-674-4491 / [branda@steppmfg.com](mailto:branda@steppmfg.com)** or contact our contract manager Jeremy Schwartz (**Email: [Jeremy.schwartz@njpacoop.org](mailto:Jeremy.schwartz@njpacoop.org) / Ph: 218-894-5488**) for further details. I look forward to being of help on this new and exciting opportunity, and hope that you will see the benefits of utilizing this contract to ease the highway maintenance equipment purchasing process.
