CONSTRUCTION

BLUESCOPE CONSTRUCTION, INC.
Pre-Engineered Buildings, Site Preparation, and Ancillary Services
CONTRACT 021215-BSC

BlueScope Construction provides the total integration of a design/build general contractor owned by a pre-engineered building manufacturer; saving both time and money for a quality facility. We offer our in-house, pre-engineered building brands: Butler® Buildings and Varco Pruden® Buildings, plus conventional steel and wood framed solutions. We are a national manufacturer and General Contractor that executes locally, utilizing our unequaled, proven team of local designers, contractors, trades and vendors.

GORDIAN GROUP, INC.
Building and Infrastructure Modification, Alteration and Repair
CONTRACT 071415-GGI

The Gordian Group provides indefinite quantity/indefinite delivery construction contracting systems that are used by public and private facility and infrastructure owners to procure repair, alteration and construction services. Gordian’s Job Order Contracting (“JOC”) solutions include all of the services and products necessary for a successful JOC Program, including a locally customized Construction Task Catalog®, Technical Specifications, Contract Documents and eGordian® information management software. The JOC solutions are available to cooperative organizations and their members through Gordian’s ezIQc® brand, and provide members a range of additional support options to choose from including Job Order Development and Construction Management Services. In addition to procuring construction through the ezIQc program, members with significant repair, alteration and construction budgets can obtain their own JOC program by piggybacking the competitively procured contract awarded by NJPA.
